## EDUCATION

**Wellesley College | Candidate for Bachelor of Arts in Media Arts & Sciences**

*Expected May 2028*

Cumulative GPA 3.89 | Coursework: Human-Computer Interaction

**Massachusetts Institute of Technology | Cross-Registered Student**

*2025 – 2028*

Coursework & Communities: Design Thinking and Innovation Project, MIT Media Lab Fluid Interfaces Group

## EXPERIENCE

**BRAT HCI Lab, Wellesley College | Undergraduate Research Assistant**

*Jan 2026 – Present*

- Contribute to an AI-for-healthcare HCI project studying how linguistically and culturally diverse patients use technology for reproductive health, translating research into human-centered design recommendations.
- Established partnerships with **2** reproductive-health non-profits and engaged **13+** stakeholders (clinicians, patients, and organization partners), conducting needs assessments and presenting proposed solution pipelines.
- Designed and facilitated **2** clinician interviews and **2** Patient Advisory Board workshops with **9** previously pregnant patients (primarily Black and Latina women) from Boston Medical Center, mapping information-seeking stages and critical decision conflicts.
- Transcribed interviews and analyzed qualitative data using affinity mapping and thematic analysis to surface key themes; contributed findings to an NSF CAREER grant application and poster submissions to **CHI 2027**.

**The Ninety-Nines, Develop for Good | UX/UI Designer**

*Oct 2025 – Feb 2026*

- Redesigned **4** core pages of The Ninety-Nines' "Let's Fly Now" website to improve navigation clarity, information architecture, accessibility, and engagement, including a landing page, **3** sign-up flows (passenger, pilot, volunteer), and an event-creation page for organizers.
- Collaborated with a **10**-person cross-functional team of designers and developers in an effective workflow, translating the non-profit client's needs into design requirements, wireframes, and functional prototypes through weekly stakeholder check-ins.

**AttentiveU Lab, MIT Media Lab | Undergraduate Research Assistant**

*Sep 2025 – Dec 2025*

- Conducted **10** end-to-end user study sessions on engagement regulation and transcutaneous vagus nerve stimulation (tVNS), managing participant setup, device calibration (Muse EEG & Parasymp earpiece), and live data monitoring.
- Collected and analyzed EEG data alongside pre- and post-session questionnaires to assess engagement and learning outcomes across stimulation conditions.

**AI4ALL Ignite Summer 2025 Program | Accelerator Fellow**

*May 2025 – Oct 2025*

- Built and evaluated NLP and regression models for readability assessment in a **4**-person team, predicting reading-level appropriateness of text for elementary school children.
- Completed weekly training in AI & ML fundamentals (supervised and unsupervised learning, NLP, and RAG), AI product management, and responsible AI practices spanning algorithmic bias, fairness, transparency, and data privacy.

## SKILLS

**Design & Development:** Figma, FigJam, Adobe XD, Lovable; User Research, Needs Assessment & Strategic Roadmapping, Usability Testing, Wireframing, Prototyping, High-Fidelity, Affinity Mapping

**Technical:** SQL, HTML/CSS/JavaScript, Python, Java, SPSS

**Languages:** Bilingual Chinese and English
